15.578	131525.000	131,525	5/6/2013	Our proposed activity is a Meeting Report: a 40-minute CE co-journal supplement to Seminars in Oncology Nursing and Pain Management Nursing which will summarize key abstracts and posters on BTP presented at the 38th Congress of the Oncology Nursing Society (ONS). It will be distributed through the SON and PMN journals and Elsevier nursing mail lists as well as cross distributed through other subscription to Elsevier Oncology and Pain journals and OncologyS at. An abstract will be published and indexed on PubMed with a URL directed back to the activity. This activity will primarily seek to reduce the knowledge gap on BTP among oncology nurses: a key audience that plays the most important role in managing pain among cancer patients. By presenting research done by nurses and presented at ONS, we will convey the importance of BTP in cancer and strategies for its management to the audience and will underscore the importance of research activities in BTP conducted by nurses. 16092	25000.000	25.000	6/7/2013	The American Pain Society (APS) has established a Future Leaders in Pain Research Grants Program to fund research projects of doctorally prepared investigators who have not yet attained NIH RO1 level funding. The program's intent is to encourage the continued training and research in pain that will add to the body of knowledge and to allow investigators to develop pilot data that will aid them in securing additional major grant funding to continue their investigation in the study and treatment of pain. We are requesting that you partner with us to expand reach into the field of pain. This program is a research award that will support research projects. The findings of the research will be presented at the APS Annual Scientific Meeting in 2015.		6/16/2015	fellowship	Fellowship	Chronic Pain (General)	Pain		Pain Sprngs Conv Ctr	CA	6/6/2013	American Pain Society	Alyssa	Engle	4700 W. 16.352	33276.810	15.000	11/7/2013	Quality Improvements in Opioid Pain Management: Practical Steps You Can Use Next Week. This is a 6-hour multi-sponsored, case-based workshop format that will describe and portray through case studies, the best practices for using opioid therapies to manage pain and will include: assessing pain, creating treatment plans, differentiating between different opioid therapies, managing risk and using adjuvant modalities. Behavioral and physical medicine: not only to relieve pain but more importantly to promote healing and restoration of function. Using a case study format supported by didactic presentation, attendees will work in small groups to discuss the key points. Because of the subjective nature of pain, often there are no absolute correct choices. Just informed best practices based on sound education and communication and agreement between clinician and patient. Our goal is to enhance the knowledge of these best practices to achieve better	9/26/2013	9/26/2013	live	Professional Education Programs	Chronic Pain (General)	Pain	Clinical Psychologist	JW Marriott Grande Lakes	FL	11/7/2013	American Academy of Pain Management	Debra Nelson Hogan	915-A Morning Star Drive	Sanora	CA	(712) 532-4794

16.564	18863.000	5.000	11/7/2013	An outstanding faculty from Beth Israel Medical Center and MHS Hospice and Palliative Care will present plenary and breakout sessions covering an array of topics relevant to the practice of specialty palliative care in varied disciplines. All faculty members are authorities in their fields with years of experience presenting at international, national, and local conferences. Plenary sessions will include keynote presentations on topics of care, discussions and the role of caregivers in end-of-life care, a panel on ethics and law, and hospice eligibility in complex cases. Breakout sessions will be offered in four areas: pain management in advanced illness; the interdisciplinary team: psychiatric and psychosocial issues; and evolving issues in palliative care. Because attendees at past programs expressed the desire to attend more breakout sessions, we have expanded the time allotted to these at this conference, giving all attendees the opportunity to attend two out of four.	2/3/2013	12/3/2013	live	Live	Breakthrough Pain	Pain		CUNY Graduate Center	NY	11/7/2013	Beth Israel Medical Center	Winfred	Schein	First Ave at 16th Street		New York	NY	(212) 844.1219

16.564	18863.000	5.000	11/7/2013	An outstanding faculty from Beth Israel Medical Center and MHS Hospice and Palliative Care will present plenary and breakout sessions covering an array of topics relevant to the practice of specialty palliative care in varied disciplines. All faculty members are authorities in their fields with years of experience presenting at international, national, and local conferences. Plenary sessions will include keynote presentations on goals of care, discussions and the role of caregivers in end-of-life care; a panel on ethics and law; and hospice eligibility in complex cases. Breakout sessions will be offered in four areas: pain management in advanced illness; the interdisciplinary team: psychiatric and psychosocial issues; and evolving issues in palliative care. Because attendees at past programs expressed the desire to attend more breakout sessions, we have expanded the time allotted to these at this conference, giving all attendees the opportunity to attend two out of four	2/3/2013	12/3/2013	live	live	Chronic Pain (General)	Pain		CUNY Graduate Center	NY	11/7/2013	Beth Israel Medical Center	Winfred	Schein	First Ave at 16th Street		New York	NY	(212) 844-1219

16 968	16632.500	14 233	9/18/2013	The PAP's live CME conference in November 2013 includes two sessions related to the safe use of opioids: "Prescription Drugs in America" presented by a retired DEA agent will educate primary care physicians about incidence, identification and prevention of prescription abuse/misuse among their patient populations. Building on the information presented in the prescription drug session, the "Extended Release/Long-Acting Opioid Therapies" lecture will present the latest risk evaluation and mitigation strategies (REMS) for extended-release and long-acting opioids. We expect approximately 100 physicians to attend the prescription drug lecture and 200 the opioid therapies lecture. Both lectures about prescription drug safety will be streamed live over the internet. Both lectures will also be available for 12 months as accredited webinars following the conference, allowing additional physicians to benefit from the education and the CME credits.	1/8/2013	11/8/2013	Ive	Live	Op ioid Misuse and Abuse	Pain	Family Medicine	Sheraton Hotel	PA	9/18/2013	Pennsylvania Academy of Family Physicians Foundation	Cathy	Stamm	2704 Commerce Dr.		Harrisburg	PA	(717) 635-7579

17.648	852265.000	850.000	4/14/2014	This grant proposes a CME/CE educational platform for primary care providers (including family practitioners and physician assistants), pain specialists, and other clinicians involved in the opioid-based treatment of chronic pain. Funds will be used for five 75- to 90-minute Interactive Exchange programs held at 2014 Primary Care Updates meetings, PAINWeek 2014, the 2014 Scientific Assembly of the American Academy of Family Practitioners, and the IMPACT 2014 Conference of the AAPA. Enduring Interactive Exchange programs will be hosted on the Med.com and Learning Central On-Demand (online CME Portal of the AAPA). The programs are a modular, interactive, case-based format and include access to a Clinical Resource Center containing slides, animations, key studies, and risk stratification and documentation tools discussed during the programs. Emphasis will be placed on addressing specific barriers to optimizing the effectiveness and safety of long-term opioid therapy for chronic pain.	7/7/2014	4/7/2014	live	live	Chronic Pain (General)	Pain	General	TBD - Pri-Med	PA	4/14/2014	Ultimate Medical Academy, LLC dba Global Education Group	Allison	Kickel	5575 South Sycamore Street		Littleton	CO	(303)395-1782

18 142	241900.000	241 900	1/29/2014	This grant proposes an accredited Evidence-Based Best Practices Program at the 39th Annual Congress of the Oncology Nursing Society which will be held on May 1-4, 2014 in Anaheim, California. The 90-minute case-based program will include interactive discussions among expert faculty dedicated to the collaborative management of cancer-related persistent and breakthrough pain. Presentations will address assessment and differential diagnosis of transient cancer pain episodes, treatment strategies for various breakthrough pain subtypes, risk evaluation and mitigation on strategies for prescription opioids, and patient education and monitoring to promote safe opioid use. The live program will also be recorded and edited into a 60-minute online Webcast. The ending activity will be distributed via a multichannel network including Oncology Nurse Advisor, myCME.com, and ExchangeCME.com. The overall goal of the educational platform is to improve pain management in patients with	1/1/2014	5/2/2014	live	Satellite Symposium	Breakthrough Pain	Pain	Oncology	Anaheim Convention Center	CA	1/28/2014	Ultimate Medical Academy, LLC dba Global Education Group	Allison	Kickel	5575 South Sycamore Street		Littleton	CO	(303)395-1782
18 142	241900.000	241 900	1/29/2014	This grant proposes an accredited Evidence-Based Best Practices Program at the 39th Annual Congress of the Oncology Nursing Society which will be held on May 1-4, 2014 in Anaheim, California. The 90-minute case-based program will include interactive discussions among expert faculty dedicated to the collaborative management of cancer-related persistent and breakthrough pain. Presentations will address assessment and differential diagnosis of transient cancer pain episodes, treatment strategies for various breakthrough pain subtypes, risk evaluation and mitigation on strategies for prescription opioids, and patient education and monitoring to promote safe opioid use. The live program will also be recorded and edited into a 60-minute online Webcast. The ending activity will be distributed via a multichannel network including Oncology Nurse Advisor, myCME.com, and ExchangeCME.com. 18.326		11250.000	5100	3/27/2014	Patients with advanced illness often require tailored treatment approaches to manage their symptoms. Around-the-clock and break-through pain are common for these patients and appropriate interventions to maintain quality of life are necessary. Specifically, education is needed on the control of pain including opioid use, dyspnea, gastrointestinal problems and psychiatric difficulties in patients with advanced illness. These needs were reflected in AHPA survey data across multiple disease states including cancer, congestive heart failure, Parkinson's disease, multiple sclerosis, and respiratory diseases amongst others. This session will discuss strategies and approaches to help maintain comfort and support overall quality of life for patients with advanced illness in the form of a didactic live presentation followed by a question and answer forum.	2/9/2014	3/29/2014	Ive	Live	Breakthrough Pain	Pain		Orlando County Convention Center	FL	3/12/2014	American Pharmacists Association	Peter	VanPelt	2215 Constitution Ave NW		Washington	DC	(215) 755-2424

18 730	10000.000	10 000	9/18/2014	2.5-day program attracting registrants from around the world the symposium brings together leaders in clinical practice to explore potential solutions on improving the quality of care of patients with chronic illnesses through palliative and supportive oncology therapies. This annual symposium focuses on providing an intensive multidisciplinary review of cutting-edge topics in the rapidly developing field of palliative medicine and supportive oncology. This year there will be a special focus on determining appropriate demented patients for hospice care. Additionally the symposium will examine opioid addiction in the cancer patient with concurrent chronic non-malignant pain and learning to incorporate less commonly used opioids into clinical practice. Afternoon sessions/workshops of either two parallel tracks: one which focuses on supportive oncology and the other provides workshops in key palliative medicine	9/18/2014	9/20/2014	Live	Professional Education Programs	Chronic Pain (General)	Pa n	Oncology	Green Valley Ranch Hotel	NV	6/9/2014	Cleveland Clinic Educational Foundation	Lori	Taylor	9500 Euclid Avenue KK31	Cleveland	OH	(216) 448-0792

18 826	15000.000	1 500	5/13/2014	Learners participate in pre and post testing which allows for self-assessment of their skills. Each learning experience has been designed to include case presentations with polling by way of an audience response system to determine content and learner needs. The learning concepts are tested at the end of the educational period to determine how successful the teaching concepts were conveyed. If needed, concepts will be re-addressed. Time is also allotted for additional questions and answers from the learners. Evaluation and follow-up surveys are created to identify proposed changes in practice and performance in practice. Workshops are a valuable tool for more in-depth learning in selected areas. The past success of this format has created an exciting opportunity for community physicians and other health professionals to participate in their educational sessions and/or workshops designed specifically for the primary care providers.	7/3/2014	5/17/2014	Live	Live	Chronic Pain (General)	Pain	General	Sherraton Midwest City, OK	OK	5/12/2014	State of Oklahoma - Board of Regents of the University of Oklahoma Health Sciences Center	Margie Miller	800 NE 15th	OKC	OK	(405) 271-2350

18 882	6000.000	6 000	4/30/2014	AAPA's Conference is the preeminent event for PA-specific CME and the only meeting for PAs in all specialties. Conference 2014 will be the largest, dedicated to professional development and recognition of PAs. Conference offers opportunities to address knowledge and skills gaps across a wide variety of clinical areas through workshops, lectures, and interactive case presentations. AAPA 2014 will offer ~200 educational sessions in more than 40 tracks. These sessions will cover a broad range of primary care and specialty topics. AAPA's Pain Track addresses topics related to treatment and management of acute and chronic pain. Topics covered include end-of-life decision making, treating chronic/recurrent pain, palliative care, acute pain in the hospital, etc. AAPA seeks support for the Pain and Palliative Care Track, including sessions cross-listed in this Track. There are 5 sessions included in the Track. Conference is scheduled for 5/24-5/28/2014 with an evaluation period 5/24-6/28/2014.	7/24/2014	8/28/2014	live	Live	Chronic Pa n (General)	Pa n	General	Boston Exhibit on and Convent on Center	MA	4/30/2014	American Academy of Physician Assistants	Jennifer	Williams	2318 Mill Road		Alexandria	VA	571-319-4417
18 882	6000.000	6 000	4/30/2014	AAPA's Conference is the preeminent event for PA-specific CME and the only meeting for PAs in all specialties. Conference 2014 will be the largest, dedicated to professional development and recognition of PAs. Conference offers opportunities to address knowledge and skills gaps across a wide variety of clinical areas through workshops, lectures, and interactive case presentations. AAPA 2014 will offer ~200 educational sessions in more than 40 tracks. These sessions will cover a broad range of primary care and specialty topics. AAPA's Pain Track addresses topics related to treatment and management of acute and chronic pain. Topics covered include end-of-life decision making, treating chronic/recurrent pain, palliative care, acute pain in the hospital, etc. AAPA seeks support for the Pain and Palliative Care Track, including sessions cross-listed in this Track. There are 5 sessions included in the Track. Conference is scheduled for 5/24-5/28/2014 with an evaluation period 5/24-6/28/2014.	7/24/2014	8/28/2014	live	Live	Op old Misuse and Abuse	Pa n	General	Boston Exhibit on and Convent on Center	MA	4/30/2014	American Academy of Physician Assistants	Jennifer	Williams	2318 Mill Road		Alexandria	VA	571-319-4417
18 969	10000.000	10 000	5/20/2014	This 2-day interprofessional regional conference brings together national and local leaders involved in efforts to address diverse challenges in providing effective pain control safely. Participants will share expertise, network and obtain knowledge and resources to assist patients in pain by evaluating and treating it in the most effective manner. The treatment of persistent pain is one of the most complicated clinical challenges providers face, and it cannot be done well in isolation. Thus, a major focus of the conference is to help providers develop an interdisciplinary team while assimilating resurged clinical and interprofessional effective pain education (interprofessional approaches and safe prescribing) into our clinical settings. Additionally, 2 hours of Risk Evaluation and Mitigation Strategies (REMS) training is part of the conference. These approaches will improve provider practices by giving them tools to help patients improve their ability to manage their lives.	7/30/2014	5/31/2014	live	Live	Chronic Pa n (General)	Pa n		University of Montana	MT	5/19/2014	Postgraduate Institute for Medicine	Angela	Noreen Meader	304 Inverness Way South, Suite 100		Englewood	CO	7209955080

The Annual Meeting will engage clinicians and healthcare providers in the improvement of quality safety efficiency and efficacy of chronic and acute pain treatment approaches across the healthcare continuum. Educational activities will empower pain care champions to transform their communities by improving assessment, evaluation, and clinical decision-making skills. Patient-centered strategies and outcomes related to the treatment of pain across the healthcare continuum will improve as a result of learner attendance at this activity.	7/19/2015	3/22/2015	Live	Live	Breakthrough Pain	Pain	Psychiatry	Saylord National Resort and Convention Center	MD	3/2/2015	American Academy of Pain Medicine	Alyssa	Engle	8735 W Higgins Rd		Chcago	IL	(847)375-4829

20722	240210.000	240210	3/1/2015	Live Satellite Symposium: an accredited symposium to be held in conjunction with the 2015 ONS Annual Meeting. This interactive symposium will bring together pain management experts to discuss current practices related to therapeutic options for BTP. Through advanced iPad technology, participant engagement and learning will be optimized and key data will be collected concerning each participant's knowledge of diagnosis, assessment, and treatment of BTP. Live Simultaneous Streaming: To ensure that maximum number of oncology nurses benefit from the critical educational information in this symposium, MedCom will offer and promote the option of a live simultaneous streaming broadcast of the symposium hosted by EmergingSolutionsPain.com so that nurses not in attendance at ONS may benefit from this educational activity. Enduring: An accredited slide-and-audio-only adaptation of the live symposium will be posted on			Enduring Material	Enduring Material	Breakthrough Pain	Pain				3/1/2015	MedCom Worldwide, Inc. 20962	25000.000	25000	3/22/2015	This program is designed so that all clinicians will meet or exceed the needs of the patients they serve by improving the assessment, evaluation, clinical decision making, and management of common pain disorders. This will be accomplished by implementing evidence-based pain treatments and protocols, including safe prescribing practices that mitigate risks associated with use of opioid analgesics, and ultimately improve quality and safety of patients' lives. This curriculum effectively integrates interventional, integrative, and patient-centered pain care – designed to improve the integration of evidence-based protocols into clinical decision making across multiple practice settings. Topics identified but not included in the 2014 program included: non-opioid pharmacology, medical/legal/ethical issues, legal/government, physical therapy/exercise, anatomy and physiology. These topics were incorporated in the curriculum for the 2015.	3/18/2015	3/19/2015	live	Live	Chronic Pain (General)	Pain	Pain Medicine	Gaylord National Hotel and Convention Center	MD	2/27/2015	American Academy of Pain Medicine	Alyssa	Engle	8735 W Higgins Rd		Chicago	IL	(847)375-4829

The session will include an educational outcomes assessment tool described below. The target audience for this annual regional conference is Physician Assistants (PAs) with projected attendance for this conference at 400 attendees.	9/21/2015	10/21/2015	live	Symposium	Chronic Pain (General)	Pain	General	Bayfront Convent on Center	PA	7/17/2015	Pennsylvania Society of Physician Assistants	Holly	Lake	803 Village Way		Harrisburg	PA	(201)280-4533
22 270	241845.000	241 845	8/14/2015	This 2-stage curriculum for pain specialists consists of linked online activities: 1) a 60-minute Medically Speaking... videotaped roundtable in which 3 pain experts, guided by a professional moderator, discuss key issues in optimizing benefits and limiting risks in use of opioid analgesics for chronic pain; 2) an interactive Current Medical Opinion (CMO) that starts with a 10-minute recap of the Medically Speaking... content followed by 20 minutes in which learners pose questions via text, email, or phone, and get direct responses from faculty who appear on webcam. The CMO is presented live twice (to accommodate varying schedules/time zones) before 1 session is archived and like the Medically Speaking... is available 24/7 on the CME website myCME for a full year. Learners are encouraged to complete both activities in sequence to maximize educational impact and earn up to 1.5 AMA PRA credit.	9/1/2015	9/1/2016	web	Web Activity	Chronic Pain (General)	Pain				8/13/2015	Haymarket Medical Education, LP	Martina	Ganansak	140 East Ridgewood Ave.		Paramus	NJ	(201) 799-4830

22 668		2292.500	2 293	1/6/2016	This program is designed to educate pharmacists and pharmacy technicians about their different roles in helping appropriate patients address their pain management needs while also playing an important role in caring for the opioid epidemic. Pharmacists and pharmacy technicians must be able to adequately perform these dual roles to protect patient needs as well as community public health. This program meets the state of Michigan's continuing education in pain management requirements.	2/28/2016	2/28/2016	live	Professional Education Programs	Chronic Pain (General)	Pain	General	Detroit Marriott at the Renaissance Center	MI	12/17/2015	Michigan Pharmacists Association	Sarah	Barden	408 Kaamoo Plaza		Lansing	MI	(517)377-0240
23 092		25000.000	25 000	1/11/2016	The Annual Meeting addresses the needs and reduces the disparities in access to quality evidence-based pain care by providing educational opportunities to pain clinicians and primary care providers. The program is designed to develop knowledge, competence, and performance related to common pain management protocols, including prescribing practices recommended to maximize the safety and effectiveness of opioid analgesic therapy and their understanding of the growing field of comprehensive pain medicine through evidence-based research, clinical practice standards, and guidelines, integrative medicine, and interactive educational strategies. Educational activities will empower pain care champions to transform their communities by improving assessment, evaluation, and clinical decision-making skills. Patient-centered strategies and outcomes related to the treatment of pain across the healthcare continuum will improve as a result of learner attendance at this activity.	2/18/2016	2/21/2016	live	Live	Chronic Pain (General)	Pain		Palm Springs Convention Center	CA	1/11/2016	American Academy of Pain Medicine	Susan	Vogel	8735 W Higgins Rd		Chicago	IL	(847)375-4829

23.240	25000.000	25.000	1/12/2016	Essential Tools for Treating the Patient in Pain™ is designed for clinicians interested in obtaining an overview of the fundamentals of pain medicine in addition to practical approaches to the treatment of common pain disorders. This CME activity offers clinically focused lectures and case presentations on the assessment, diagnosis, and treatment of patients with various acute, breakthrough, and chronic pain disorders. Participants will conclude this program with an improved delivery of patient-centered pain care; demonstration of medical knowledge, competency, and performance of quality pain care; demonstration of a commitment to carrying out professional responsibilities related to access to quality pain care; regulatory standards; and sensitivity to diverse patient populations.	2/20/2016	2/21/2016	live	Live	Chronic Pain (General)	Pain		Pain Medicine	Palm Springs Convention Center	CA	1/11/2016	American Academy of Pain Medicine	Susan	Vogel	8735 W Higgins Rd		Chicago	IL	(847)375-4829
23.266	10000.000	10.000	1/13/2016	AMPA's Conference is the preeminent event for Pain Medicine CME and the only meeting for PAs in all specialties. Conference 2014 will be the largest and called to professional development and recognition of PAs. Conference also offers the opportunity to address knowledge and skill gaps across a wide variety of clinical areas through workshops, lectures, and meet the expert sessions. AMPA 2014 will offer approximately 200 educational sessions in more than 40 tracks. These sessions will cover a broad range of primary care and specialty topics. AMPA's Pain Track addresses topics related to treatment and management of acute and chronic pain. Topics covered include end-of-life decision making, treating chronic/recurrent pain, palliative care, acute pain in the hospital setting and others. Sessions are designed to meet educational needs and practice gaps of PAs in primary care and specialty practice. Through Conference, PAs develop and enhance knowledge and skills to improve patient care.	1/14/2016	8/18/2016	live	Live	Chronic Pain (General)	Pain	General		Henry B Gonzalez Convention Center	TX	1/13/2016	American Academy of Physician Assistants	Jennifer	Williams	2818 Mill Road, Suite 1300		Alexandria	VA	571-319-4417

23.508	25000.000	25.000	2/2/2016	Pain is a leading cause of disability and a major public health problem. Ensuring appropriate assessment and treatment of pain has a far-reaching impact on morbidity, mortality, quality of life, and economics of individuals and across the healthcare system. There is a continued need to connect the work of researchers studying the science of pain with those from multiple disciplines who seek to use the best and most current evidence to treat and thus improve pain care, especially as put forward in The National Pain Strategy (4/2/2015). The document includes objectives for key areas of pain care: professional education, public education, communication, service delivery, reimbursement, prevention and care disparities, and population research. APS provides the pain community with a unique forum for sharing advances and standards in evidence-based pain research and treatment by colleagues from all disciplines in a setting that encourages interaction.	1/11/2016	5/14/2016	live	Professional Education Programs	Chronic Pain (General)	Pain	General		Auntie's Convent on Center	TX	2/1/2016	American Pain Society	Susan	Vogel	8735 W Higgins Rd		Chicago	IL	(847) 375-4829

23 746	25000.000	25 000	3/10/2016	The Fundamentals of Pain Management Course: An Interdisciplinary Primer® has been established to fill the need for a highly-trained researchers and practitioners to address the treatment of pain as a public health issue. The pedagogical aims are to provide an opportunity for interdisciplinary learning and the social foundation for lifelong learning focused on pain management. The target audience: practitioners in Anesthesiology, Neurology, Family Medicine, and Physical/Rehabilitation Medicine. No CME credits are provided. The 1 1/2-day course combines didactic lectures with breakout groups and case studies, offers approximately 13 hours of content. The content provides an overview of all aspects of pain medicine and specific presentations on common pain disorders. Following the course, participants attend the Annual Scientific Meeting to further engage them with inter-	7/10/2016	5/11/2016	live	Live	Chronic Pain (General)	Pain	General	Austin Convention Center	TX	3/10/2016	American Pain Society	Susan	Vogel	8735 W Higgins Rd		Chicago	IL	(847) 375-4829
23 746	25000.000	25 000	3/10/2016	The Fundamentals of Pain Management Course: An Interdisciplinary Primer® has been established to fill the need for a highly-trained researchers and practitioners to address the treatment of pain as a public health issue. The pedagogical aims are to provide an opportunity for interdisciplinary learning and the social foundation for lifelong learning focused on pain management. The target audience: practitioners in Anesthesiology, Neurology, Family Medicine, and Physical/Rehabilitation Medicine. No CME credits are provided. The 1 1/2-day course combines didactic lectures with breakout groups and case studies, offers approximately 13 hours of content. 24 202	37758.000	37 758	6/9/2016	This proposed presentation of the ACCP will update clinicians on new strategies for the management of chronic pain (with a focus on non-cancer pain). Attention will be focused on opioid use and methods (pharmacological and otherwise) to limit abuse/misuse of these agents. Practical guidance regarding the treatment of pain in patients with evidence of opioid dependence will also be reviewed. Practical means of dealing with side effects (eg constipation), tracking effectiveness, monitoring adherence, means of screening for risk of misuse, and the appropriate time to refer to a specialist will be discussed. The presentation will also include data on non-pharmacologic treatments of chronic pain and how these therapies may be integrated into a comprehensive treatment regimen for	10/27/2016	10/31/2016	live	Symposium	Chronic Pain (General)	Pain	Osteopathy	W Marriot Desert Springs Resort and Spa	CA	6/9/2016	American College of Osteopathic Internists, Inc. 24 744	7500.000	7 500	7/26/2016	Nonmedical use and abuse of prescriptive pharmaceutical drugs is a serious public health problem. Although most people take prescription medications responsibly, an estimated 52 million people (20 percent of those aged 12 and older) have used prescription drugs for nonmedical reasons at least once in their lifetimes. The abuse of certain prescription drugs—opioids, central nervous system (CNS) depressants, and stimulants—can lead to a variety of adverse health effects, including addiction. Overdoses from prescription opioid pain relievers are a driving factor in the 15-year increase in opioid overdose deaths. Since 1999, the amount of prescription opioids sold in the U.S. nearly quadrupled as have the number of deaths from prescription opioids/drugs like oxycodone, hydrocodone, and methadone. In addition, benzodiazepines are commonly abused or misused.	8/25/2016	8/25/2016	Live	Live	Chronic Pain (General)	Pain	General	The Conference Center at Pickwick Landing State Pa	7/26/2016	Southern Medical Association	Randall	Glick	35 W. 25 322	27500.000	27 500	11/21/2016	AAFP has significant tenure providing quality pain education. This course is designed for clinicians interested in obtaining an overview of the fundamentals of pain medicine as well as practical approaches to the treatment of common pain disorders. This CME activity offers clinically focused lectures and case presentations on the assessment, diagnosis, and treatment of patients with various acute, breakthrough, and chronic pain disorders. The goal of the Essential Tools course is to implement a comprehensive evidence-based pain medicine curriculum in a live educational format designed to improve access to safe and effective multidisciplinary evidence-based pain practices across the healthcare delivery system. AAFP will provide continuing medical education in a variety of effective adult learning formats. These include: •Live lectures • Symposia • Learning modules on-line and simulation workshops •Expert panel discussions • Scientific research poster presentations	7/5/2017	9/16/2017	live	Live	Chronic Pain (General)	Pain	Pain Medicine	Loews Sapphire Falls Resort	FL	11/21/2016	American Academy of Pain Medicine	Susan	Vogel	8735 W Higgins Rd		Chicago	IL	(847)375-4829

25 390	85000.000	85 000	12/14/2016	Pharmacists are being called to be active members of the interprofessional healthcare teams when managing patients with chronic pain, and thus must have the confidence and competence to communicate with healthcare providers and patients regarding the latest options in pain management. With the growing concern of opioid abuse, pharmacists must be cognizant of the scope of the problem as well as strategies available to deter abuse. Based on the identified practice gaps and defined educational needs, a satellite symposium at the 2017 American Pharmacists Association Annual Meeting & Exposition (APhA2017) will be an effective educational venue to increase the pharmacists' knowledge and competence in abuse-deterrent formulations (ADF's). At the conclusion of this activity, learners will be able to better understand the issues with opioid abuse and identify current strategies and technologies that can be applied in the clinical setting to deter abuse.
